

Pre Calculus Hon.
Room 1-043
Mrs. Hawley

Syllabus

*All BCHS policies and procedures will be followed.

CLASSROOM RULES

1. Appropriate Language: Students are to use appropriate language
2. Be Respectful: Students are to respect yourself, peers, teachers, & surroundings.
3. Electronics: Students are to use personal electronics ONLY with permission.
4. Be on Task: Students are to be on task and not causing distractions.

SUPPLIES

- School wide binder
- Dividers (3)
 - Notes
 - Assignments
 - Assessments
- Highlighters
 - 6 colors preferred
- Pencils
- Loose leaf paper
- Textbook: Pre-Calculus, Blitzer 4th Edition (library check out)
- Requested:
 - Tissues
 - Hand Sanitizer

HOMEWORK POLICY

Homework is graded for completion.

Late homework: NOT accepted after the schedule test date. A 10% per day penalty will be applied for each day the assignment is late.

Absent: Number of days absent = number of days to complete missing work for full credit. (ex. Absent 3 days = 3 days to make up)

EXTRA HELP

Tutoring: I offer tutoring by appointment.

ELP: Located in room 4-101 every Tuesday, Wednesday, and Thursday from 2:00pm to 3:00

ABSENT POLICY

- It is YOUR responsibility to check your folder daily to get any missed materials and copy the notes from a peer.
- Any handouts that need to be collected will be in the make up crate in the folder with your name on it.
- Check the calendar to see what was done in class that day.
- If you just missed a test but were present for the lessons leading up to the test you will take it the day you return.
- # of days absent = # of days to make up work.

RECOMMEND

- Form a study.
- Don't get behind.
- Review your notes everyday after class.
- Get a TI-84 or equivalent and learn how to use it. (These will not be provided in class)

TOPICS OF STUDY

Pre-Calculus is a full year course comprised of two main topics – trigonometry and analytical geometry. The primary focus of this course is on preparing juniors (and possibly sophomores) to take AP Calculus AB next year or for seniors intending to take calculus in college. Incoming students must have taken Algebra II Honors last year. Trigonometry is the study of triangles, with a focus on the sine, cosine, and tangent functions. In analytical geometry, we will focus on additional functions, including polynomial, rational, exponential, and logarithmic functions. Our last topic of the year is an introduction to calculus, with a focus on limits..
